I am pleased to say that both Bob Jarman and Brian Fordyce are now safely back with us and very grateful to you and everyone at Montreal who made their stay so worth while and enjoyable.

Kindest regards,

Yours sincerely,

D. G. FELTON

MONTREAL.

Dear Leo,

I have now managed to gather together all the information we have here at Southampton relating to the subject of ions in smoke and their possible biological effects. I enclose photocopies herewith for you to retain on your files.

They are:-

1. Green and Lane, excerpt from "Farticulate Clouds, Dusts Smokes and Mists". pp. 74-82.
2. "The Effects of Air Ions on the Living Mammalian Trachea" Krueger and Smith. J. gen. Physiol. 1958, 42, 69-82.
3. "The Biological Mechanisms of Air Ion Action" Krueger and Smith. J. gen. Physiol. 1960, 43, 533-540.
4. "The Effects of Air Ions on Trachea of Primates" Krueger, Smith and Millar. Proc. Soc. exp. Biol. 1959, 101, 506-7.
5. "An Enzymatic Basis for the Acceleration of Ciliary Activity by Negative Air Ions". Krueger and Smith. NATURE, 1959, 183, 1332-3.
6. "Effects of Air Ions on Isolated Rabbit Trachea". Krueger and Smith. Proc. Soc. exp. Biol. 1957, 96, 807-9.
