Dear Hugh:

Herewith two copies of Research Laboratory report, dated November 18, 1959, covering Vanguard cigarettes, which may be of interest to you.

We realize that the Vanguards now on the market may be rather different in recipe than the Vanguards covered in this report. Nevertheless, it is interesting to note that our tests gave results for tar and Benzpyrene contents of the smoke much higher than tobacco.

With kindest regards,

Sincerely,

L.C. Laporte
