MONTREAL, P.O., CANADA

April 3, 1964.

Dr. D. G. Felton,
Research & Development Establishment,
Regent's Park Road,
Southampton, England.

Dear Geoff,

As requested in your letter of March 31,
I am pleased to enclose a copy of our Research Laboratory
Report No. 7, "The Quantitative Determination of 3,4-
Benzpyrene in Cigarette Smoke" for forwarding to our
friends at Bristol. I had been under the impression that
they had seen this report, but there is certainly no harm
in letting them have a copy.

With best regards.

Yours sincerely,

R. S. Wade - MANAGER
RESEARCH & TECHNICAL
SERVICE LABORATORIES.

RSW:BS
