31st March, 1964

R.S. Wade, Esq.,
P.O. Box 6500,
MONTREAL.

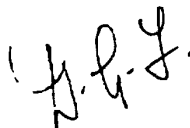

Dear Bob,

We have received directly from the librarian of our friends at Bristol a request for a copy of your Research Laboratory Report No.7. "The Quantitative Determination of 3,4-benzpyrene in Cigarette Smoke" which you issued on May 25th, 1960. It would seem from the distribution in our copy that in those days there was no generally wide circulation as there is today. If you are agreeable to our friends having a copy, perhaps you would send one to us for onward transmission.

I realise that the normal course is for reports to be requested from you by Mr. Anderson, but as he is away today and I shall be away tomorrow, and as I was writing to you about other matters any way, I thought it reasonable to short-circuit the system while keeping Mr. Anderson informed. I hope on this occasion this arrangement is acceptable to you.

Kindest regards,

Yours sincerely,
