

5 NOV 1991

Note to: Mr A L Heard

TOBACCO STRATEGY REVIEW TEAM

This is a gentle reminder that the deadline for the completion of papers for the next meeting of the TSRT is the end of next week. This date is important so that the papers can be seen by the Chairman before he departs for the Marketing Conference in Orlando. I attach a copy of the action note sent to you on 25th September. In summary, the papers required from you or your department for the next meeting will be:

- ✓ 1. Update on testing and use of Y-1 tobacco.
2. Progress report on decomposition products of root treated tobacco.
3. Use of reconstituted stem.
4. Progress on smoking compendiums and their distribution to operating companies.
5. The future significance of de-nicotined brands and their implications for Group research and development.
6. A review of the R&D programme - organisation and funding. Please coordinate this with Barry, following his meeting with UH and RJP.
