BATCo document for Province of British Columbia 15 April 1999

400847808

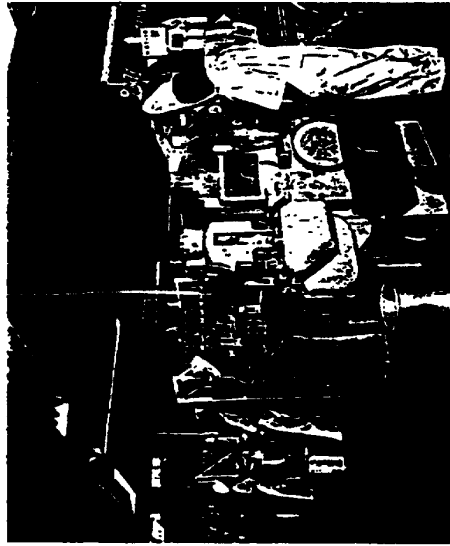

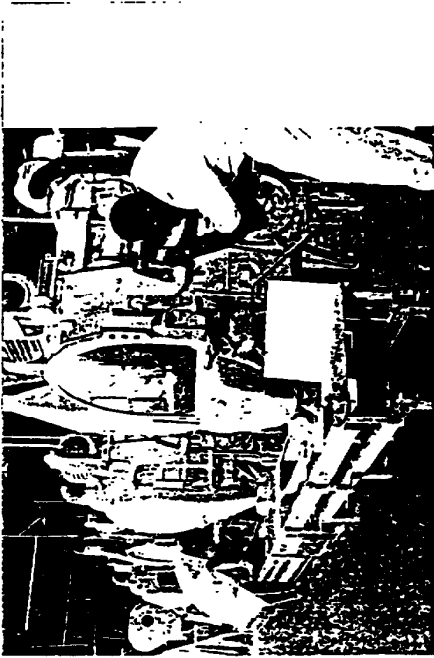

Thank you for visiting our exhibition. We hope the glimpse you have had into our "factory" has shown you our contribution to industrialisation in Nigeria. There is much we could not show you, many of the machines are too big to bring to the Exhibition, and many more are working every day in our factories at Ibadan, Port Harcourt and Zaria.

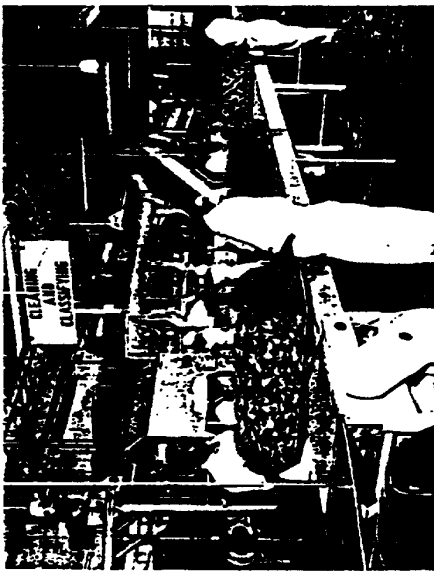

The artist's impression is of our Ibadan Factory. It covers 20 acres and employs 600 people and includes, besides the Machine Buildings, Workshops, Stores, Offices, a Boiler House, Garages, a Fire Station, Canteens, a Dispensary and a Training Centre.
