Mr. P.L. Short P

Mr. Samuel D. Chilcote, President of the Tobacco Institute in Washington would like to invite the Committee to dinner on the evening of August 28. Would you please let me know if you will be able to attend, so that I can arrange for the invitation to be extended to you.

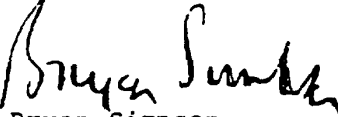

I have arranged for the scientific members of the committee to consider bringing some proposals forward to take a further step in our planning, and enclose a copy of my memorandum to them.

It is important that the Public Affairs and NMA representatives also give consideration to ways and means of creating material which may assist the Industry.

May I therefore refer you to items 6-7-9-10-11 of the notes of our last meeting and ask you to study the material and let me have your views on a concise selection of printed material which could be considered for tabling at the NMA workshop.

I will be conferring with Shook, Hardy & Bacon on the updating of a position paper which could form the basis of an Industry booklet, which could be produced by INFOTAB and tailored to suit NMAs which have a requirement for this type of material.

Any additional thoughts you may have will be welcomed.

Bryan Simpson
Secretary General
