Bedminster,
Bristol,
BS3 1QX

Dear Geoff,

I enclose an annotated copy of your papers on nitric oxide. You will have already received the draft paper by Tim Higenbottam. We are progressing with our paper on aldehydes but it is unlikely to be ready for 10 December and unless you are making very rapid progress I am wondering if the proposed date is a little premature.

With kind regards.

Yours sincerely,

R. E. THORNTON
