Mr. C.M. Seymour
Executive Secretary
Canadian Tobacco Manufacturers' Council
Chelsea House
1808 Sherbrooke Street
Montreal, P.Q. H3H 1E5

Dear Chris:

This is a follow-up of our meeting at the Tobacco Manufacturers' Council on March 30. I would like to express my gratitude to you for arranging this meeting because I believe that it helped increase the understanding between the scientific representatives of the member companies and myself.

The research proposal which I submitted last year covered a three-year period with a budget request for 1984-85 of \$88,402. I have enclosed a progress report for 1983-84 and the outline of the work we hope to complete in 1984-85 if the budget is granted. The background and rationale for proposing this work were outlined in the original proposal.

In order to decrease the paper burden I have only included abstracts of the work outlined in the progress report. I will be happy to provide the complete manuscripts to any of the member companies you request.

Hoping that the Tobacco Manufacturers' Council will see its way clear to make this grant, I remain,

Yours sincerely,

James C. Hogg, M.D.
Professor of Pathology, U.B.C.
Director, Pulmonary Research
