Dear Stewart,

Many thanks for your help and hospitality during my visit to Imperial Tobacco Ltd. last week. The itinerary you arranged provided a superb opportunity to find out about some of the interesting projects being worked upon in your Laboratories, and to relate these to some of the work being undertaken at GR&DC. If you could thank those who spared time to talk to me I would be most grateful.

We are currently looking forward to the Biological Conference next week. Again many thanks for your hospitality.

Best regards.

Yours sincerely,

E.D. MASSEY
