Dear Pat,

Following our recent telephone conversation, I confirm that the meeting on Fractionation will take place here in Southampton on Tuesday, 26 April. Could you please let me know when Minoo is coming over so that the necessary hotel accommodation can be booked. If Minoo wishes to stay on for a few days afterwards to discuss subjects of mutual interest in greater detail we shall be very pleased to see him. Professor Bryn Bridges and Dr. Francis Roe will be joining us for the discussions and we hope for a useful exchange of views.

I am asking Eian Massey to contact Minoo for a discussion on whether or not a position paper on fractionation is needed and I will then send out a brief formal agenda for these discussions. Hopefully at the same time I will also send out the agenda for the main biological meeting, scheduled for 19 and 20 May, which is intended to take a much broader view of biological matters of importance to BAT, now and in the future. On this occasion Dr. Roe will again be joining us, probably for the afternoon of the first day.

I trust that the problems with the CTMC soon resolve themselves and look forward to hearing from you.

With kind regards.

Yours sincerely,

R. E. THORNTON
