Dear Dr. Dunn,

Please find enclosed first draft of the Collaborative Mutagenicity Report between GR&DC, BAT Hamburg and yourselves. I have attempted to keep experimental details brief, as these have already been reported, and would possibly detract from the main theme of an excellent agreement between the participating laboratories.

I have also sent a copy of the draft to Hamburg, and would be grateful for your comments for incorporation into a final draft. I look forward to receiving your critique of the draft and production of the final report.

Yours sincerely,

E. D. MASSEY
