Dear Bob,

Study of Canadian School Children

You will recall that while in Canada I offered to see if we could obtain advice from Nicola Cherry of the London School of Hygiene, who has considerable experience of coping with large panels. I sent you a copy of the letter and I now send you a copy of Nicola Cherry's reply, held up by the fact that she has most thoughtfully moved to Canada for two years. Not only that, she is right on your doorstep in Montreal, and in view of her kind offer to help I assume that you will now wish to contact her directly yourself.

I trust the project is going well and look forward to hearing from you.

With kind regards.

Yours sincerely,

R. E. THORNTON
