Dear Pat

Report No. RD.1962 Restricted

The Functional Significance of Smoking in Everyday Life

I enclose the Montreal copies of this important report by Rob Ferris.

You will recall that a draft version of the report was discussed at the Rio Research Conference last year.

Can I draw your attention to Minutes 28 and 29 of the Conference, which include the view that: "CAC Companies should consider whether the information already reviewed is summarised in a form suitable for use by Public Affairs to support the practice of smoking."

Kind regards,

Yours sincerely,

C.I. AYRES
