Dear Wilmat,

May I thank, through you, all those from Marketing (especially Wayne) who contributed so much effort to making my recent trip a professionally informative and personally stimulating experience.

As always I came away from I.T.L. frustrated with the time constraints and full of admiration for the committedness and vigorous intellectual curiosity which your professionals bring to bear on the market.

Whenever possible, I will pursue my opportunities to contribute to those efforts.

With thanks and best regards,

Yours faithfully,

R.P. FERRIS
