

RESTRICTED

PROPOSED CONFERENCE ON EPIDEMIOLOGICAL ANOMALIES

Objective: To produce conference proceedings covering the same area as "Compendium of Epidemiological Studies".

Advantages over Compendium: Multiple authorship, credibility.

Problems & Disadvantages over Compendium: Variable control. Uncontrolled contributions from individual speakers, cost. Conflict between speakers. Who will edit (RET?). (1)

Possible venues: Australia, Malaysia or Hong Kong.

Timing (provisional) January 1986 ± 2 months

Duration 2-3 days

Some possible Speakers: From the following list:

- |                   |                    |
|-------------------|--------------------|
| P. R. J. Burch    | GB                 |
| P. N. Lee         | GB                 |
| J. Baltrusch      | Germany            |
| Gossarth-Maticek  | Germany            |
| Sherman           | USA                |
| W. Blume          | Switzerland        |
| H. Morck          | Denmark            |
| J. Moore          | Australia (Sydney) |
| Adlkofer          | Germany            |
| Eysenck           | GB                 |
| Maria Blomke      | Germany            |
| Balitsky          | Russia             |
| Sheldon C. Somers | USA                |
| Masse             | France             |
