

TO:	Lynda Holland	FROM:	K. Ling
REF:	Rolling Forecast - Canada Domestic	DATE:	04-08-93

Re my fax dated April 7/93, we need to amend the forecast as attached. The amendment was mainly due to the suggestion made by Mac Harrison in our last meeting in Orlando. Mac showed deep concern in both the quality (freshness) of the products in the inventory and the new regulations on the H/W to be implemented in September. He then suggested that IFL will either discount the existing inventory or to D&D the inventory prior to September. Hence, we believed that a shipment of 1.0 million will be required in July, 1993.

Best regards,

K. Ling
