Dear Dick

I am dropping you a note in Tony's absence regarding an opportunity that has been brought to Nick Brooke's attention by Tommy Sandefur, President of B&W.

Tommy has advised Nick that there is a high demand for 555 on the Indian reservations which border Canada. Unfortunately, I do not know which Indians or where on the border! However, Indian reservations cigarette sales are exempt from State tax and operate as large retail outlets which sell to consumers at excellent prices. Tony has asked that you investigate this opportunity without delay.

Have a good trip to Orlando and please phone if I can provide any information.

Best regards.

*Susan*
