From: Vivien Becher

REF: PROJECT DANIELS

Further to Mr Kojima's letter to me dated 10th January, I have one additional point which requires clarification.

When I discussed the contents of the letter with Mr Kojima, he advised that the size of the letters for the front/back panel clausung "20 cigarettes" should be 1/8" high. This is much larger than on the sample packaging materials you supplied us. As the size has important implications for our final pack design, I would be grateful for your urgent confirmation of the size of lettering we should use.

I have tried to contact you by phone twice this week and, as I am now out of the office until Tuesday, 28th January, I would appreciate a phone call or fax from you as soon as possible next week.

Many thanks for your help.
