5th April, 1974.

For our conference in Germany, I would be grateful if  
I could get appropriate people to let me have brief authoritative  
information on the following:

The position of NMFI tests in the Group.

Recent published work (since last conference) on  
the health effects of nicotine.

Ditto on "benefits" of smoking.

Alpina summary, including P.M. in Switzerland.

Malta.

Present status (S. & H.) of dark tobacco cigarettes.
