Dear Ray:

With reference to our telephone conversation, I am enclosing some of the more recent joint publications which Heberto R. Ghezze has been involved with at McGill. Presently he is working at the Laboratoire de Fonction Respiratoire à l'Hôpital du Sacre-Coeur in Montreal, but spends one day a week assisting at the McGill Pathology/Epidemiology labs.

Relating to Dr. Jim Hogg, I've enclosed information on his MRC funding for the past three years, and he receives funds from several other sources; the CTMC monies this past year are approximately \$90,000. For background information I've enclosed an abstract of his work outlined in the CTMC proposal; and there is much further detail available if you should require it.

I see no problem in your visiting with Jim next year and if I can be of any assistance in arranging any details don't hesitate to contact me.

Hoping you and your family have a pleasant holiday season.

Sincerely yours,

Patrick J. Dunn
