25th September 1980

Dear Bob,

I thought that I should drop you a line since, for some unknown reason, I failed to locate you to say "Cheerio" at the end of our Research Conference in Sea Island, - you were the only one I missed on that last evening. I felt that the Conference went very well, and Bob Sanford is to be congratulated on finding such a wonderful spot in which to hold it.

My real reason for writing is to thank you for organising my all-too-hurried visit to the Montreal laboratories, and I do look forward to the opportunity to spend more time on my next visit.

I would also like to thank you and Ruth for the enjoyable time I spent with you on the Saturday; there really seems nothing to sailing ...!

I look forward to having a closer contact with you in the future and, as you know, I am particularly keen that we should improve our liaison, at least in the concept side of the Primary Process project.

Again, sincere thanks.

With very best wishes,

A.L. Heard
