12th June 1980

Dear Bob,

We can confirm that Dr. Bilimoria is expected here at GR&DC from July 15th. Richard Binns will be responsible for the programme during his visit, although I look forward to meeting him, hopefully when he first arrives.

We have arranged accommodation at the Dolphin Hotel for the nights of 15th, 16th and 17th July and I am happy to arrange transport from the airport, if Dr. Bilimoria wishes.

I look forward to a possible visit to Montreal, either around the time of the Research Conference in September, or during late October, when again I shall be your side of the Atlantic. I propose checking the position with Bob Gibb a little nearer the time.

With kind regards,

Yours sincerely,

A.L. Heard
