Canada.

Dear Bernard,

Automatic Shag Weigher Patent

Thank you for your letter of 5th April enclosing a copy of the Automatic Shag Weigher Specification as filed in Canada in January, 1970.

I note that the application was filed in Canada on 16th January, 1970 and consequently we will be unable to obtain priority for this patent as more than a year has passed since the application was filed in Canada and I also note that you applied for the patent on 3rd March, 1969 in the United States. As you know we are most anxious to be informed of patent applications which you or other Associated Companies may file and I shall be grateful if you will let me know immediately your Company has applied for a patent in Canada so that should we consider it to be of value we could patent it in other countries.

I should also be grateful if you will send me the application number for the Shag Weigher Patent in Canada and when it is granted, the filing details of the patent.

Yours sincerely,

E. S. Langford
