

BRITISH-AMERICAN TOBACCO COMPANY LIMITED
Millbank

TO Mrs. U. Ende	FROM B. E. Hearnshaw
REF P129	DATE 25th November, 1971

AJ 100 Process

With reference to our telephone conversation earlier this week, we have now ascertained that the Canadian Patent Application in respect of the above matter does deal with a process of reconstituting tobacco and a copy of the relevant specification is enclosed for your files.

We wrote to Mr. Dansereau on 27th July last, copy to you, requesting overseas applications in four countries including the United Kingdom, but as yet no filing details have been received from Canada.
