IMASCO - GROUP R&D

The Chairman has spoken to Mr Crawford on Imasco's participation in the Group's R&D. The Chairman advised Mr Crawford that BAT does not mind one way or the other whether Imasco is in Group R&D or not, but emphasised that, if Imasco is in, then it must be on BAT's terms. If the terms are not acceptable to Imasco, then they are not to participate.

Mr Crawford is considering the position.
