SMOKING ISSUES BROCHURES/ COMPENDIUM

The situation with our smoking issues material is as follows:

Compendium: This was a Corporate R&D initiative for CAC company scientists only, and has recently been revised by Ray Thornton. It is not for external use at all. *Revised version sent to CAC Research directors.*

* **Smoking and Health: the Unresolved Debate; Smoking: the Scientific Controversy; Smoking: Habit or Addiction** We do not propose to update these three documents this year, since there is nothing particularly new or noteworthy to be incorporated. We will review the situation next year.

ETS: the Science: This is now well out of date and a completely new brochure on ETS, and possibly other on specific issues (workplace, airlines etc.) will be produced by the end of this year.

There will also be a series of completely new brochures on the following subjects:

- advertising
- sponsorship
- children
- additives and constituents.

Dr. Sharon Boyse
Smoking Issues Manager
