Dear Dr Jennison

Thank you for your letter of 13 February 1986 concerning Adhesive RO 716. I have checked our records and find that a letter was sent to Imperial Tobacco in January 1991 concerning it. I cannot be sure whether it was received there, but a more likely source of the problem was an uncertainty of the person(s) most concerned with the product.

I am copying this letter to Dr S P Massey of the R&D Department of Imperial Tobacco Ltd, to ensure that the information reaches the people concerned.

Yours sincerely

T G MITCHELL  
Chairman, Additives Guidance Panel
