20th November, 1980

Dear Mrs. Hartmanshenn,

In response to your letter of 12th November, we have examined the formulation RO 716 and see no reason why it should not be used as a side-seam adhesive.

This is subject to confirmation at the next formal meeting of the Panel in early December, following which the decision will also be communicated to Imperial Tobacco, Montreal.

Yours sincerely,

T. G. Mitchell,  
Secretary, Additives Guidance Panel
