Water proofing Agents for Cigarette Papers

I attach the above mentioned correspondence and enclosures which are self explanatory and were obtained from Tom Smith on 9.2.82. In view of the situation for Canada can you deal with this matter as soon as it is possible. Perhaps you would also be kind enough to let Tom know that you have the matter in hand and when he can expect an answer. In the meantime I will be checking ^{with Purchasing Department} whether there are other possible alternatives.

Fred Dashley
