Mouse strain B16 problem
- have we checked the
World exports eg NCI?
- Is DGF able to help?

Strong suggestion of more effort
to understand why different
toxicities are observed
so that we can develop
future products
- Ames test said to be a
good diagnostic test.
Can this be brought to
bear?

109841739

DIET - now to giving up.

Don't expansion ~~process~~ gives
firing power - could be
the high temp 350/400
destructively distilling off
vegetables and giving
stuff back!

Want to have a ~~piece~~
look at the biological area
- we need it, but what
should we do?

Are we selling more
puff and bluster?

Avry Scholtes for Leaf
Steering Committee?
Talk Rutchard

Head space → anagram
- would like MS analysis
to identify the nestles
in printing materials
Will GRDC do some
work for IIL?

Interested in seeing
whether the Hering
method can be tuned
to a better device
for end quality
- GRDC to pursue?

109341741

Evob

Herb Recipe - Project Goumet

Roger Penn's 10 basic parameters
of aroma gives a large
test for any one herb
eg 10 x 3 examples x 2 tests
x 3 for herbs

∴ Are you working towards
a common place and
herb that where taste is going
down and flowering
is upwards
— (are you should be no
different than, say, UK.

What is our objective?
How does it work? Start with it?

109341742

How will GR&DC work lead
the development of Associates?
- and what timescales?

109841743

Leaf - Peter Gage

h. S. Cottle - needs statement
of objectives

- how can Canada help
Canada by vegetative studies
Virginia - flatland to
vegetate Virginia

Canada research via the
Council

4% ITZ + growth + Govt
In-kind help in
trees in Honduras

Quality in Canada 4 - spacing
and earlier tapping.
