Dear Bob,

You may recall that during my visit you asked that we explained in simple terms the objectives of the new Taste & Flavour programme. I spoke with Jeremy on the 'phone and he, in fact, had the enclosed note awaiting my return. Unfortunately, I mislaid it and it has only just re-surfaced! I hope you will find it helpful, but do not hesitate to come back with any queries.

You also said you would like GR&DC's help on mass spectrometric analysis of volatile components in printing materials. If you, or someone, can let Sam Evelyn know your exact requirements we should be very happy to help.

With kind regards,

Yours sincerely,

hgs
