Dear Dr. Bilimoria,

Discussions on Long-term and Short-term Testing

I am writing on the subject of the proposed meeting to discuss the results obtained in the collaborative programme which was tentatively scheduled by Richard Binns to take place in May 1981 at Southampton. Unfortunately, there are some other meetings likely to be held at Southampton in May, in which I shall be involved, and I have therefore decided it would be better if we held our meeting in June at Southampton.

Perhaps, you could let me know, therefore, if the week commencing Monday, 8 June, would be convenient for you to attend these discussions.

Yours sincerely,

R. E. THORNTON
