NOTE FOR MR. A. L. HEARD

The next meeting of the Tobacco Strategy Review Team has been arranged for Thursday, 24th April. Among the items to be discussed at this meeting will be:

1. The evaluation of Favor
2. Progress on plans for the Epidemiological Conference.

I would be grateful if you could let me have a copy of the main report and recommendations on Favor, so that I can discuss this with the Chairman on his return, and then submit it to TSRT. I would also be grateful for a one paragraph progress report from Ray Thornton on the Epidemiological Conference.
