Dear Dr Boyce

Smoking and Health Information Bulletin

Thank you for your letter and for the new bulletin on smoking and health.

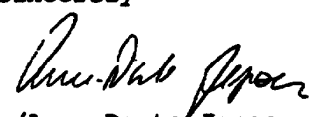

We find that the frequency as well as the format will be helpful to us in compiling our files. We do receive the Lancet and Br. Med. Journal and in theory maybe just the summaries will be sufficient?

As areas of special interest to us we would like to mention the protective effect of vitamins, Selenium etc. on cancer, and a regular update on product liability.

We look forward to receiving the next bulletin, and hope there will be a chance of meeting you in the future.

With kind regards

Yours sincerely

 
Willem van Putten/Anne-Dorte Jepsen
