

RD.564-R

RESEARCH AND DEVELOPMENT ESTABLISHMENT

TO	DR. S.J. GREEN, RESEARCH & DEVELOPMENT, MILLBANK.	FROM	DR. I.W. HUGHES.
REF	IWH/JP/46D.	DATE	8th May, 1968.

Enclosed are four copies of Report No. RD.564-R covering our first report on the transformation of normal cells to malignant.

Of a number of attempts made, we are now concentrating on one - the "feeder layer" system. This work has, however, indicated that we may be able to develop a test for non-hydrocarbon fractions of smoke, and we would also like to pursue this.

I have at present included I.T.Co. in the circulation. Is this in order?

Dr. Hughes

Encs. 4.

Herewith RD 564-R - it is self-explanatory. Disclosure to TPC would not be helpful in the long run.
