

**TO: D. S. F. HOBSON, ESQ.
SIR CHARLES ELLIS.**

FROM: S. J. GREEN.

I believe RD. 560-R is quite important - if for no other reason but that it shows how far we can get with model systems. The choice of "stages" for consideration is to some extent arbitrary so that care must be taken on interpreting the results in this respect. I do not think this should be further circulated in Millbank, at this stage, that is until the next part of the work is completed.

S. J. GREEN.
