

TO: D. S. F. HOBSON, ESQ.
SIR CHARLES ELLIS.

FROM: S. J. GREEN.

Herewith report RD.496-R on nitrosemes. A case is made for saying these higher nitrosamines do not constitute a serious hazard. I do not agree, however, that the case is strong enough to accept the recommendation that they should drop work aimed to reduce these compounds in smoke.

S. J. GREEN.
