

RESEARCH AND DEVELOPMENT ESTABLISHMENT

RD 403-R  
W.S.J. S.J.G.  
ACK

TO DR. S.J. GREEN,  
RESEARCH & DEVELOPMENT,  
MILLBANK.

FROM DR. I.W. HUGHES.

REF IWH/JP/62A.

DATE 15th June, 1966.

Enclosed are six copies of Report No. RD.403-R dealing with the transfer of three glycols into mainstream smoke.

As you know, this work was requested as a result of the Additives Guidance Panel meeting, and this report will be followed by a second one dealing with the pyrolysis products.

You will note that I have included three copies for I.T.Co., Bristol, in the distribution. I would appreciate hearing from you whether this is in order.
