

12th April, 1979.

Professor J.C. Hogg,
The University of British Columbia,
Pulmonary Research Laboratory,
1081 Burrard Street,
Vancouver, B.C.

Dear Jim,

I am very sorry I was unable to see your laboratory while I was in Vancouver and sadly discovered on my return here that I might have met you in Vancouver after all - I left on Wednesday 4th April. Nevertheless, I saw something of the University of British Columbia and some of the beauty of B.C. - and Victoria - and took the train out of Vancouver.

I hope you will let me know when next you are over here.

With kind regards,
Yours sincerely,

S.J. GREEN
