Subject: U.S. TOBACCO COMPANY'S RESEARCH MONOGRAPH

Dear Mr. Nicholls,

Further to your letter of 15th November and our telephone conversation on the above subject, I will forward the monograph to your department as soon as it becomes available.

Regarding the request for samples, whilst I appreciate the policies of your Company regarding the supplying of samples of cigarettes, I would appreciate the following cigarettes for comparison testing, to evaluate the difference in flavour, strength, effect, and stimulation purposes:

- 1 (One) Carton of Benson and Hedges filter cigarettes (200)
- 1 (One) Carton of Claridge filter cigarettes (200)
- 1 (One) Carton of Capstan filters (200)
- 1 (One) Carton of Capstan Plain (200)
- 1 (One) Carton of Capstan Cork-tipped (200)
- 1 (One) Carton of Fiesta filters (200)
- 1 (One) Carton of Alpine menthol filters (200)

Trusting you will give this matter your very careful consideration, I remain,

Yours faithfully,

Neville W. Shackleton
