Dear Bob,

The enclosed file note I made following a visit to
Huntingdon recently is sent for the private information of
yourself and Bob Gibb. It tended to confirm the impression
I read into the aflatoxin story from WARP. The information
was quite unprovoked and was a spontaneous response from
the HRC people, who seemed amazed that we had encountered
the gentleman. I did not mention the WARP contact and was
consequently very interested to hear what they had to say.

Obviously, I would not want you or Bob Gibb to pass
it on any further, but it may help you when assessing any
further developments.

With kind regards,

Yours sincerely,

D.G. FELTON
