

McGILL UNIVERSITY  
MONTREAL

Department of Pathology,  
Pathology Institute.

1st February 1971.

Mr. L.C. Laporte,  
Vice President of Research and  
Development,  
Imperial Tobacco Company of  
Canada Limited,  
3910 St. Antoine Street,  
Montreal, Quebec.

Dear Mr. Laporte,

I enclose the grant application which we spoke  
about over the phone. I have made it self and to the  
point but would be happy to enlarge on the proposal, either  
in person or in writing, if it is required.

As you will note the Chairman of Pathology, Dr.  
Robert More, and Dr. Alan Mann have approved the project  
for the Department of Pathology and the University administration.

Hoping the tobacco industry will grant this  
request, I remain

Yours respectfully,

James C. Hogg, M.D., M.Sc., Ph.D.
