

LETTER FOR DR. S.J. GREEN

RET/JP/487

17th July, 1970.

Dr. T.A. Smith,
Manager,
Research Department,
Imperial Tobacco Co. of Canada, Ltd.,
P.O. Box 1500, Montreal 30,
CANADA.

Dear Tom,

Thank you very much for your letter giving the deliveries of Carbon Monoxide, Carbon Dioxide and Benzpyrene from your additive treated cigarettes. Your results show that additives can be used to control the delivery of both carbon monoxide and benzpyrene, and this is, of course, similar to some of our findings.

As I am about to go on holiday, I will pass your results on to Henry Horsewell: no doubt if he has any further comments to make he will contact you direct.

With kind regards,

Yours sincerely,

RT

R.E. Thornton.

c.c. DR. S.J. Green
H.G. Horsewell, Esq.
