Research & Development	
Revd: 25 MAR 1964	To: Dr. D. G. Felton, R. & D. Establishment, SOUTHAMPTON.
From :- Sir Charles Ellis	ASMP
Seen by:.....	London 24th March, 1964.
File: 46D	

I enclose a draft of a paper to Mr. Hobson through H.D. Anderson and A.D. McCormick which, if approved, would authorise R. & D. to *encourage to* establish Bio-Assay Screening Tests at Frankfurt. I have had this prepared in a final form as this gives a rather better impression than wide spacing in draft, but I trust that you will make any amendments that you wish, either of fact or of improved presentation. The appendix to which I refer is that of the 18th March, "Bioassay of Tobacco Smoke", ref.46D, under cover of your letter to me of the same date. I suggest for consideration that Item D, "Skin Painting of Mice", should be omitted since it is a long-term procedure, and it would be very much better if we could get this done at Harrogate. If you can agree to omit this I think it makes the picture a little clearer. Since you have copies of this document I am not enclosing it.

If you can send me back the amended minute I will get it re-typed with your initials and mine at the bottom.

Charles Ellis

Enclosure.

c.c.
Dr. I. W. Hughes.
