Millbrook,
Southampton.

Dear Dr. Felton,

As you may know I receive a number of letters asking for general information on the chemistry of tobacco smoke. From time to time I have asked Dr. Bentley for his help in answering these letters but I should like to share the load a little and I was wondering if on this occasion you would be so kind as to have a look at the letter from Mr. McCarty, a copy of which I enclose, and let me know what I may say in reply.

Yours sincerely,

C. H. JAMES
Secretary
