AIRMAIL

29th January, 1962

Mr. L. C. Laporte,  
P.O. Box No.6500,  
MONTREAL 30.

Dear Mr. Laporte,

I am sending you the report on work done here during October, November and December 1961, which I hope you will find of interest.

As you will realise, I have been experimenting in the last year with programming and reporting and have, I think, now reached a reasonably stable system which can remain settled for a year or two. The present report covers each item mentioned in the programme. Because a new system of project numbering was introduced from October 1st the preceding quarter (July, August and September) remains un-reported in detail although this is covered generally in the Annual Report.

With kind regards,

Yours sincerely,

*SJG*
