WAG

R. & D.E. QUARTERLY REPORT
OCTOBER-DECEMBER, 1967

including Millbank

Page 22a should be removed from all copies except those for Mr. Hobson and myself but included, of course, in the ones you mentioned.

There are a number of points we might discuss but in particular the practice of reporting results in the Quarterly Report is creeping in again. For example, see 2206, 2209, 2211, 3107, 3122, (3142) 3162, 3221 etc.

() No work to report!!*

In job number 3103, delay is reported due to 1601 but Mr. Cousins does not appear to be involved in 1601. — He is (under DJW).

3142 mentions shortage of cigarettes of the right specification; the meaning of this is not clear. Another is 4154 where it is stated that the review remains open.

I assume job 4507 will be charged to Southampton Branch.

Yes.

In 6503, it is mentioned that cigarlets have been sent to Millbank. Would you please let me know which Department and what action we expect to follow.

No comments rec'd Refs issued.

Finally, with regard to 2301, is the labelled nicotine made at Harrogate suitable or is there any other reason why we are not buying it from them?
