

TSRT  
Rlc

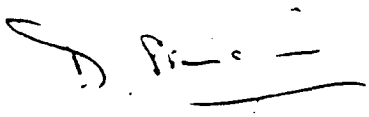

Note to Dr. T. Hirji, Woking.

Ammoniated Sheet

Following the last TSRT meeting, three requests have been made seeking clarification on the use of sheet tobacco viz.

1. The content of ammoniated sheet in Lucky Strike, Kent and Barclay blends in all BATCO operating companies.
2. The use of ammoniated sheet by Rothmans and Phillip Morris in their Virginia brands.
3. The inclusion rate that Phillip Morris use of reconstituted tobacco from the Bandcast sheet process in their blends.

I believe that you already have this information from previous work studies, in which case I will be grateful if you could supply it by the end of July latest. I also understand that you are sponsoring some additional work to determine more information and although this will clearly not be available by the end of July, I would be grateful if you could let me know what work you are undertaking and which of the above figures are rough estimates.

  
D. J. STIMSON
