On a number of occasions the RFG has recognised that it should be ensuring a co-ordinated approach to key regulatory or pseudo-regulatory (e.g. Coresta) issues across the Group. We have never, so far, however, identified those issues which need agreement in this way.

As an ultimate input for our RFG discussion in October but also for possible consideration at the proposed Marketing Directors meeting, I would be grateful if you would send me a list of items on which you feel we need to establish a Group position.

I would expect all Coresta-related matters to be included but there are many additional areas (e.g. additives policy) on which we need to agree.

I would appreciate a response by 18th June.

With kind regards,
Yours sincerely,

A.L. Heard
